

Dear Parents and Carers

I know a lot of parents were anxious about students returning to school, and what that would be like for their child/children.

I can confirm that we were delighted with an 81% attendance rate today. We are expecting more students over the next few days as parent confidence grows.

Teachers and students were excited about being at school. With the high percentage of attendance, all students were engaged in face to face learning with their teacher.

Thank you to parents for your overwhelming support.

Just a few reminders for students to return all laptops, texts and equipment tomorrow morning to the library. These resources are urgently required in class now that students have returned. The canteen will be accepting online orders from Thursday.

Have a wonderful evening.

Karon Brookes
Principal
