OCEAN REEF
SENIOR HIGH SCHOOL

ACADEMIC EXTENSION PROGRAM

Opportunity

We offer an intellectually stimulating education program which is rigorous but supportive, inclusive but flexible and conducive to the pursuit of excellence. Students are challenged by an accelerated and differentiated curriculum that values higher order thinking and critical literacy in a student centred learning environment.

Growth

The program brings together like minded, highly academically capable students, fostering the development of their talents as well as caring for their social and emotional needs.

Balance

Our uniquely flexible program is available to students in Year 7, with the opportunity to continue into Years 8 and 9, and operates in two pathways - a Maths and Science pathway and an English and Humanities & Social Sciences pathway. Students may access one or both pathways depending on their academic needs and continued progress within a pathway. This aspect of the program differentiates it from the Department of Education and Training's affiliated GATE program.

Selection

Selection into the Ocean Reef Academic Extension Program is based on the results of a selection test which is conducted at Ocean Reef Senior High School. The *Higher Ability Selection Test (HAST)* is an ability test used by secondary schools to identify academically gifted students for participation in accelerated learning and enhancement programs. HAST is designed to measure innate ability and academic potential unlike curriculum-based tests which typically identify what a student has already learned. Students will be tested in Reading, Mathematics, Abstract Reasoning and Written Expression. Continued involvement in the program is reliant upon achievement in line with course expectations and maintaining Good Standing in the school and student's involvement in the program will be subject to ongoing review. Successful applicants will be notified after 4 June 2024.
